App.js

The image shows a Visual Studio Code editor window with the following components:

- Explorer Panel:** Displays the project structure for 'Tutorial06'. The 'app' directory is expanded, showing subdirectories like 'contexts', 'screens', and 'assets'. The 'App.js' file is selected and highlighted in blue.
- Main Editor:** Displays the code for 'App.js'. The code is as follows:

```
1 // App.js
2 import React from 'react';
3 import { NavigationContainer } from '@react-navigation/native';
4 import { createStackNavigator } from '@react-navigation/stack';
5 import { UserProvider } from '../contexts/UserContext';
6 import { NotesProvider } from '../contexts/NotesContext';
7
8 import LoginPage from '../screens/LoginPage';
9 import RegistrationPage from '../screens/RegistrationPage';
10 import HomePage from '../screens/HomePage';
11 import AddNotePage from '../screens/AddNotePage';
12 import ViewNotePage from '../screens/ViewNotePage';
13
14 const Stack = createStackNavigator();
15
16 export default function App() {
17   return (
18     <UserProvider>
19       <NotesProvider>
20         <Stack.Navigator initialRouteName="Login">
21           <Stack.Screen name="Login" component={LoginPage} />
22           <Stack.Screen name="Register" component={RegistrationPage} />
23           <Stack.Screen name="Home" component={HomePage} />
24           <Stack.Screen name="AddNote" component={AddNotePage} />
25           <Stack.Screen name="ViewNote" component={ViewNotePage} />
26         </Stack.Navigator>
27       </NotesProvider>
28     </UserProvider>
29   );
30 }
```
- Terminal Panel:** Located at the bottom, it shows the command 'node' being executed. The status bar indicates 'Ln 17, Col 13', 'Spaces: 4', 'UTF-8', 'CRLF', and 'JavaScript'.
- Taskbar:** The Windows taskbar is visible at the bottom, showing the search bar and several application icons.
